SprayLogger™

SprayLogger is an advanced, yet an incredibly easy to use pesticide record-keeping system. Automatically gather application information and generate live, viewable maps and professional reports for every job with ease. There is no need for applicators to change the way they spray, and it works on any type of vehicle or backpack.

SprayLogger data and reports meet or exceed all government and contractor requirements. The hassles and errors typically associated with making maps and filling out reports are eliminated. SprayLogger is the system that gives you less desk time and more spray time!

MONITOR UP TO 18 BOOMS

CALL NOW! (866) 408-2675

POCKET SIZED BACKPACK MODEL!

- ✓ A turnkey, easy to install, hardware and software system with live customer support.

- ✓ Works in remote areas with backpacks, horsepack, ATVs, multi-tank trucks, aerial, and hy-rail.

- ✓ Monitors and maps multiple spray rigs and booms among many applicators.

- ✓ Includes live, online and secure maps showing exact spray and no-spray locations with complete spraying details.

- ✓ Centralizes data; Comprehensive, printable PDF reports for every job; Exports to any GIS.

- ✓ Automates weather data capture.

- ✓ Meets all government and customer requirements, including NISIMS.

- ✓ Easy to learn, no GIS experience required.

Any Job, Anywhere!

Whether the job has your crew working in remote canyons with backpacks, on the rangeland with UTVs, in roadside units, or on hy-rail, SprayLogger does it all. SprayLogger gathers spray and no-spray activity from one or many applicators and then automatically generates maps and detailed reports for every job. The data is never lost because it is securely stored online where it can be shared with others or exported to other GIS and database systems. All this can be done with little or no training and is far easier than keeping track with paper reports.

User Friendly, Enterprise Powerful!

EASY TO DEPLOY:
SprayLogger is easily installed on any spray rig. You can monitor all backpack,ATV,UTV, truck,and hy-rail jobs with ease. Even track multiple booms simultaneously!

EASY TO USE:
Just turn on your SprayLogger,start your job, and go! SprayLogger doesn't let technology get in the way of getting the job done.

EASY TO ACCESS:
All your spray jobs with maps and spraying details are automatically uploaded and securely stored in your private online account. You control access to any or all information.

EASY TO SHARE:
Instantly generate printable reports and export data for any GIS or database. *(KMZ,SHP,and CSV formats,or API)*
